

Diabetic-Mate: your blood glucose follower

Project 3: Visual Design Inspiration Library from Mobbin.com
Zahra Maher Alnamer

August 4th, 2021

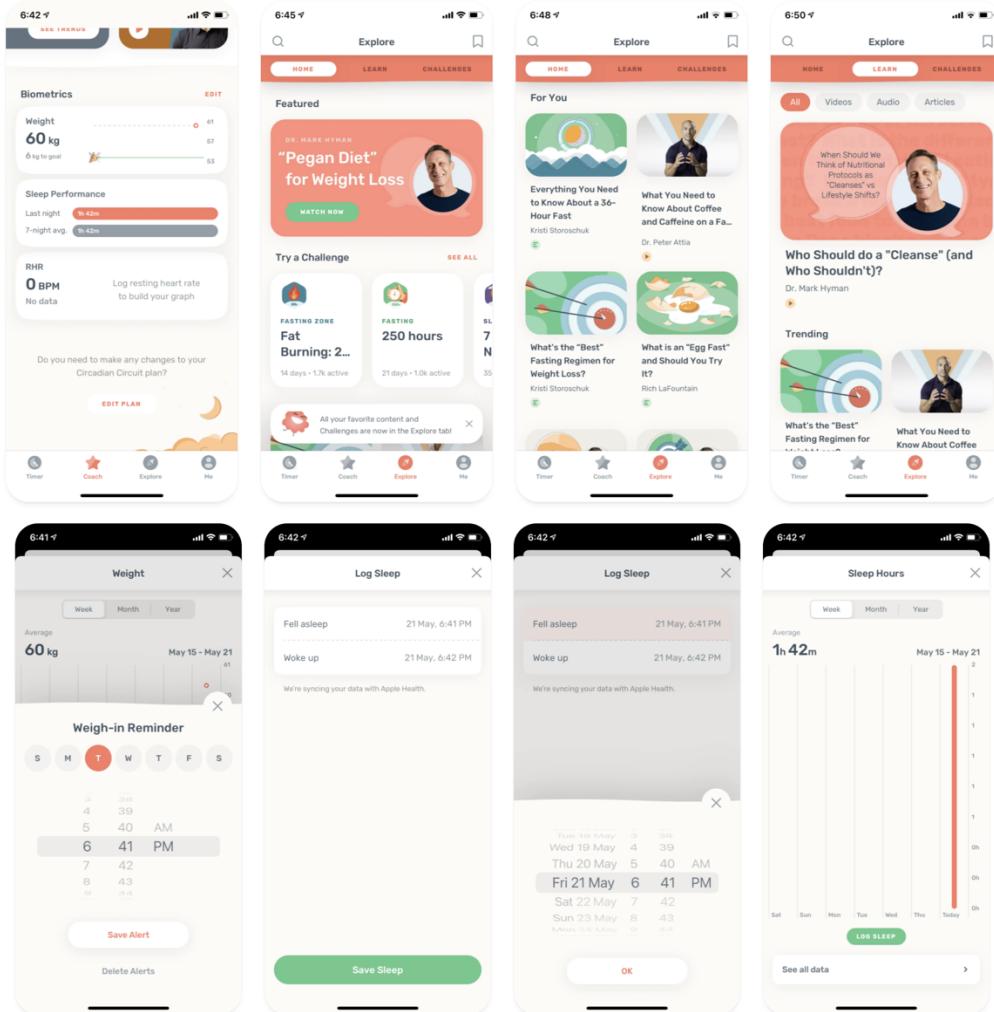

Visual Design Inspiration Library from Mobbin.com

• General Notes:

1. Due to the Mobbin new update, the sharing link for the library is not more available. Therefore, the inspiration library has been prepared in this PDF file.
2. I have screened out most of each application screens because I am getting small ideas from each single screen, that is why there are a huge number of screens in each inspiration app.

• Inspiration Screens:

1. Zero App (Weight Loss & Metabolic Health):

Top Row Screenshots:

- Save your fast:** Shows a summary of a completed fast (3 minutes) and a calendar view of the week.
- Add Preset:** Allows creating a new preset with fields for Title, Duration (8 hours selected), and Style.
- Enjoy your Fastbreaker!**: A summary screen showing various fasting duration options and a count of people fasting.

Middle Row Screenshots:

- Mood Log Reminders:** Set reminders for specific times every day.
- Add Fast Reminder:** Set a reminder for a specific date and time.

Bottom Row Screenshots:

- You're fasting!**: A timer screen showing a 16:8 TRF fast (15:59:00 remaining).
- Current Fasting Zone ANABOLIC**: An anatomical diagram of the human body illustrating the Anabolic phase of a fast.
- Anabolic**: Detailed description of the Anabolic phase (0-4 hours).
- Deep Dive**: Detailed nutritional and hormonal explanation of the Anabolic phase.
